In the spirit of cooperation between the Embassy of United States and the Government of Madagascar, the Embassy will donate an x-ray machine to the Government of Madagascar to be used at Ambovo Airport in Mahajanga. It will be presented by Ambassador James D. McGee to the Director General of the Aviation Civile de Madagascar, Mr. François Randriamahandry, at Ambovo Airport on February 26, 2007. This machine will serve as a tool to assist law enforcement authorities in combating crimes such as smuggling of prohibited items and terrorism. The x-ray machine is valued at \$60, 000 and is the model used at American Embassies and other government buildings around the world.
