

## **Warden Message 03/17/2009**

Having accurate numbers of American citizens in country is extremely important for the US Embassy during these turbulent times. We ask that if you have left country, please send us an e-mail so we can properly update our records.

While it is true that you will no longer receive e-mail notification of warden messages once our records show that you have departed the country, every warden message is also posted online at our website [www.antananarivo-usembassy.gov/warden-messages.html](http://www.antananarivo-usembassy.gov/warden-messages.html).

For those of you who return to the country at a later date, please be sure to notify us at that time as well, so we can re-open your registration record.
